PHON NGAM COTTON

SEAsTra works directly, on site with a selected number of South East Asian Artisans and Artisan Groups to promote hand crafted products of exceptional quality.

Phon Ngam is an artisan cooperative from a traditional farming community in northern Thailand near the border with Laos.

Phon Ngam Cotton

Phon Ngam Cotton is an artisan cooperative, the members of which are primarily farmers. Along with growing rice and related crops, the farmers grow the plants from which the natural indigo dye is extracted. Indigo has been traditionally used in the areas of northern Thailand. After dying, the cotton yarn is hand woven into scarves in a variety of traditional and contemporary patterns.
